PROFESSIONAL SUMMARY

Product Designer with 5 years of experience designing B2C and B2B web and mobile products across marketplaces, social platforms and SaaS. Specialized in product growth, monetization, engagement and scalable design systems.

PROFESSIONAL EXPERIENCE

Yalwa GmbH

DEC 2023 – PRESENT

Product Designer

WIESBADEN, GERMANY

- Lead hands-on product design for two major consumer products, owning end-to-end design for premium subscriptions, upselling, livestreaming and other core experiences.
- Redesigned the livestreaming experience, contributing to a 242% increase in average stream duration, 43% audience growth and 300% growth in daily messages.
- Reworked premium subscriptions by introducing new tiers and features, contributing to 10% of total revenue.
- Established a token-first design system with semantic tokens, reusable components, documentation and Figma as the central source of truth.
- Led accessibility improvements aligned with WCAG 2.1 AA guidelines, increasing the Lighthouse accessibility score from 80 to 96.
- Collaborate with product managers and engineers from discovery and concept development through implementation and design QA.

Shark Software

SEP 2021 – SEP 2023

UX/UI Designer

KHARKIV, UKRAINE

- Led end-to-end UX/UI design for an AR-enabled social mobile application from concept to MVP.
- Defined information architecture, core user flows, interactive prototypes and the visual design system.
- Designed an MVP web-based SaaS accounting platform, translating business requirements into clear, implementation-ready experiences.
- Created branding and visual assets across multiple client projects.

Digital Cloud Technologies

MAR 2021 – AUG 2021

Intern UX/UI Designer

KHARKIV, UKRAINE

- Contributed to desktop application interfaces designed according to Microsoft Universal Windows Platform standards.
- Supported senior designers with wireframing, prototyping, design iteration and engineering collaboration.

CORE SKILLS

Product Design: Information architecture, user flows, wireframes, responsive UI, visual design, interactive prototypes, subscriptions and monetization

Research: User interviews, usability testing, surveys, analytics, competitive analysis and design QA

Design Systems: Semantic tokens, reusable components, documentation, accessibility and developer handoff

Tools: Figma, FigJam, Jira, Confluence, Adobe Creative Cloud, AI prototyping and HTML/CSS

EDUCATION

Google UX Design Professional Certificate — Coursera · 2023
