

Oleksandr Tanashkin

Product Designer

Currently in Germany | Authorized to work in Canada

Product Designer with 5 years improving engagement across B2C and B2B products through data-driven UX and scalable design systems.

EXPERIENCE

Yalwa GmbH, Product Designer

DEC 2023 – PRESENT · WIESBADEN, GERMANY

Lead hands-on designer for two major B2C products, owning core features (Premium, Upselling, Live Streaming). Established a token-first design system and led design strategy across product and engineering. Drove WCAG 2.1 AA accessibility upgrades, raising Lighthouse accessibility from 80% to 96%.

Shark Software, UX/UI Designer

SEP 2021 – SEP 2023 · KHARKIV, UKRAINE

Led UX/UI for a social mobile app with AR from concept to MVP — owning IA, core flows, and the visual system. Designed an MVP web-based SaaS accounting platform and delivered branding assets across multiple client projects.

Digital Cloud Technologies, Intern UX/UI Designer

MAR 2021 – AUG 2021 · KHARKIV, UKRAINE

Contributed to desktop applications built to Microsoft UWP standards and supported the company’s Microsoft Store presence. Assisted senior designers with prototyping and engineering collaboration.

SELECTED PROJECTS

Live Streaming

FEB 2024 – JUL 2024 · CONSUMER DATING PRODUCT

Increased average livestream duration by +242%, grew livestream audience by +43%, and daily messages by +300%.

[View case →](#)

Design System for a Marketplace Platform

JAN 2025 – MAY 2025

Built the design system end to end, resolving the disconnect between design and development with semantic tokens and Figma as the single source of truth.
