PROFESSIONAL SUMMARY

Product Designer with 5 years of experience designing consumer and B2B products across marketplaces, social platforms and SaaS. I take core user flows from discovery through implementation, with experience in subscriptions, monetization, engagement and scalable design systems.

PROFESSIONAL EXPERIENCE

Yalwa GmbH

Product Designer

DEC 2023 – PRESENT

WIESBADEN, GERMANY

- Own end-to-end product design across two consumer products, covering core user flows, subscriptions, upselling and livestreaming.
- Redesigned the livestreaming experience, contributing to a 242% increase in average stream duration, 43% growth in audience size and 300% growth in daily messages.
- Redesigned premium subscription tiers and features, growing revenue for the subscription line by roughly 150%.
- Established a token-first design system with semantic tokens, reusable components and documentation, making Figma the shared source of truth for design and development.
- Improved product accessibility against WCAG 2.1 AA guidelines, increasing the Lighthouse accessibility score from 80 to 96.

Shark Software

UX/UI Designer

SEP 2021 – SEP 2023

KHARKIV, UKRAINE

- Designed mobile and web products for international clients at a software agency, spanning AR social, AI-driven platforms and B2B SaaS, plus brand and visual systems across client projects.
- Designed an AR-enabled social mobile application from concept to MVP, defining the information architecture, core user flows, interactive prototypes and visual design system.
- Designed an MVP web-based accounting platform, translating complex business requirements into structured workflows and implementation-ready interfaces.

Digital Cloud Technologies

Intern UX/UI Designer

MAR 2021 – AUG 2021

KHARKIV, UKRAINE

- Contributed to desktop application interfaces designed according to Microsoft Universal Windows Platform standards.
- Supported senior designers with wireframing, prototyping, iteration and developer handoff.
